About Us

ATiS established in 1986, champions industry issues on behalf of the ICT / Telecommunications industry in Singapore.

It seeks to provide a common platform for all members of the industry to interact, work together and position Singapore as a leading global InfoCommunications (ICT) hub.

ATiS members come from all areas of the ICT / Telecommunications industry including Service Providers and Operators, Equipment Manufacturers, Distributors and Dealers, Value-Added Resellers (VARs), System Integrators (SIs), Consultants and RND organisations.

ATiS seeks to keep it's members abreast with up-coming technologies and industry updates by organising regular seminars and info-sharing sessions.

ATiS reinforces its presence in the industry by participating in international / regional conferences and exhibitions, facilitating networking sessions with foreign trading partners, representing the industry in national standards committees and establishing regular dialogues between the industry and the Government.

In the coming years, ATiS plans to roll out a series of initiatives, seeking to boost its profile and involvement to greater heights. Quarterly newsletters and activities corresponding to the members' needs are also organised on a regular basis, to promote networking and information exchange.

In addition, ATiS will continue to represent Singapore in the annual conference of the Asian Telecommunications Information Exchange (ATIE), an annual forum that encompasses ICT / Telecommunication industry bodies in Asia and currently comprises members in SAR Hong Kong, Japan, Korea, Taiwan, India, China and Australia.

ATiS is currently working to include our neighboring countries in SE Asia, in the ATIE and to promote SMEs in the ICT industry to develop their business and venture overseas.

Membership

Corporate Membership
