ROS Reference No.: 302/1986 TAP

of Singapore (ATIS) met at 'CommunicAsia 2010' on 16<sup>th</sup> June, to discuss bilateral issues and a possible co-operation to promote 'India Telecom 2010', to be held in New Delhi, India, 9-11 December 2010

India Telecom 2010 will be hosted for the fifth year in succession as a joint venture of DOT and FICCI, and is the largest annual technology event of the Indian Telecom sector, where both products and technologies are show cased by telecommunications vendors and business clients.

The Indian Telecom market is a very attractive one for Singapore companies and there exists an FTA and MRA between both countries.

According to IE Singapore, more Singapore companies should take advantage of the Free Trade Agreements (FTAs) penned between India and Singapore to enter the burgeoning Indian market.

The country currently also has the fastest growing telecommunications market in the world.

It was agreed that ATIS will spear head the collaboration with, and seek assistance from the Singapore Government to attract Singapore Telecom and Telecom related companies to the event and also share information about the event to the Asian Telecommunications Information Exchange (ATIE), of which ATIS is a charter member.

ATIE is a fraternity of Telecommunications Trade Associations from Taiwan, SAR Hong Kong, Japan, Korea, Singapore, India and Australia
